

You Have the Greatest Impact on Your Child's Life.

The connection between you and your child becomes critically important as your child develops foundations for learning. Your Local CFCE is available to provide support during this most crucial time.

Your CFCE provides support for families and children from before birth through school age. They provide access to comprehensive services, child development information, and educational opportunities to support you in your role as your child's first teacher.

"Healthy development depends on the quality and reliability of a young child's relationship with the important people in his or her life, both within and outside the family. Even the development of a child's brain architecture depends on the establishment of these relationships."
